- EMAIL ask@stoikerty.com
- PORTFOLIO http://portfolio.stoikerty.com

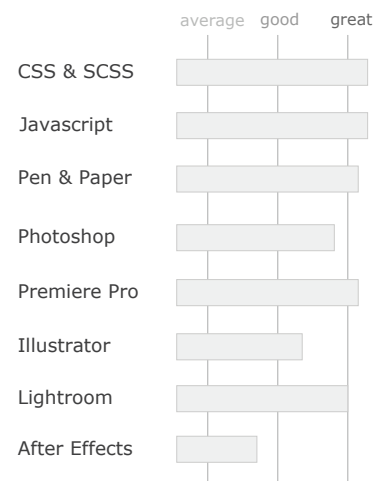

*A good user interface has to be accessible, intuitive and useful.*

*Highly skilled in using SCSS & modern javascript to create bespoke tools optimized for touch. Being aware of the common pitfalls from using 3rd party tools, I have dedicated my efforts towards creating maintainable & extendable interfaces through continuous research and solid architecture. In addition to programming with React, Gulp & Node, I treat animation as a first class citizen and have therefore the corresponding skills in design & motion-graphics.*

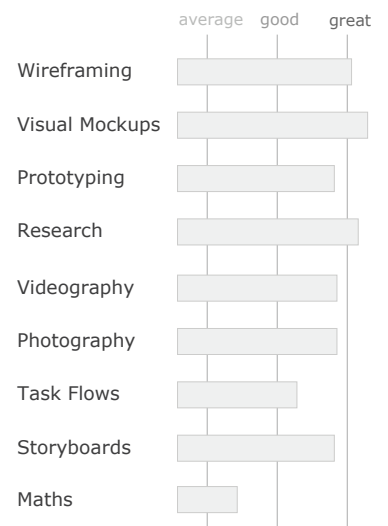

### WORK EXPERIENCE

- Sticky9 (Photobox) 2015-2016  
**INTERFACE DEVELOPER, APPLICATION ARCHITECTURE**  
Rebuilt the Frontend using SCSS, React, Redux & Immutable.js, foregoing the existing Rails Asset Pipeline in favour of bespoke Gulp Asset Manager. Gulp used Autoprefixer, Browsersync, ES6, custom theme compilation for Tumblr & later Wordpress. Created multiple touch-based components, custom React-based Infinite Scroll, custom IE9 Uploader for S3.
- JustInvesting 2013-2015  
**INTERFACE DEVELOPER**  
Styled the entire web-application & public website using SCSS & js. Self-growing inline-editor with in-context help, converts wiki-markup. Main navigation that expands, revealing nested items with description. Interactive styleguide using KSS, highlights existing elements on page. Animated dropdowns and cards, youtube/vimeo URL-checker & others.
- Lineheart, Apple Reseller 2012-2013  
**WEB DEVELOPER, INFOGRAPHISTE**  
Developed, styled and maintained the public website. Created News API for iPhone Application. Linux Server Management & Maintenance. Created & styled an array of other websites and tools like poll-creator, touch-optimized slideshow & responsive CMS-menu. Written in "vanilla" javascript. Continuously tested in IE8+ and touch devices.
- audio-video-disco 2011  
**TRAINEE IN STRATEGY, ORGANISATION & WEB DEVELOPMENT**  
Wrote an equalizer in Flash to be used as the website logo. Edited recorded audio using Pro Tools. Storyboarded, filmed & edited a presentation-video for use in Company Event. Young kids were invited to talk about the meaning of "audio, video & disco" and do mild acting. Prototyped, styled and developed public website (PHP, CSS, jQuery)
- Freelancing 2010-2013  
**VIDEOGRAPHER, PHOTOGRAPHER, WEB DEVELOPER**  
Filmed & edited Gala Show. Orders can be placed for DVD's and video-files using a custom website (Ruby-on-Rails app). Maintained & advertised facebook-page for a Restaurant using photos of the main dishes. Created public website with CMS-integration.
